PROFESSIONAL SUMMARY

Motivated Artificial Intelligence student with hands-on training in AI, Machine Learning, and Data Science. Skilled in building Machine Learning, Deep Learning, and NLP models. Seeking internship and entry-level opportunities in AI/ML.

EDUCATION

- **Bachelor of Science in Artificial Intelligence | Currently Pursuing** — The Begum Nusrat Bhutto Women University, Sukkur
- **Intermediate | 2023-2024** — Government Girls Degree College, Sukkur
- **Matriculation | 2021-2022** — Government Girls High School, Sukkur

PROJECTS

- **Satellite Ship Detection (VGG16)** — Deep learning transfer-learning model to classify ships in satellite imagery using TensorFlow/Keras.
- **Emotion Detection (BiLSTM with Attention)** — NLP deep learning model that classifies emotions in conversational text using a Bidirectional LSTM with an attention mechanism, built in TensorFlow/Keras.
- **RAG Business Chatbot** — Retrieval-Augmented Generation chatbot using Sentence Transformers and FAISS for semantic search over a business knowledge base.
- **Customer Segmentation** — Applied clustering to group customers by purchasing behavior for marketing insights.
- **Titanic Survival Analysis** — EDA on passenger data to uncover survival patterns using Python and pandas.
- **Tesla Stock Data Analysis** — Analyzed historical stock price trends and trading volume.
- **Movie Ratings Analysis** — Explored rating distributions and audience preference trends.
- **Python Fundamentals Notebook** — Practice notebook covering core Python and data-handling exercises.

INTERNSHIPS & WORK EXPERIENCE

- **Digital Marketing Intern | icreativez Technologies (3 Months, Online)** — Completed a 3-month online internship in digital marketing, July 2026.
- **Graphic Design Intern | CodeAlpha (Feb-Mar 2026)** — Created digital assets and assisted with design-related projects.
- **Summer Intern | Alkhidmat Summer Internship Program (2025)** — Professional development training and project management tasks.
- **AI and Data Science Intern | Arch Technologies (8 Weeks)** — Hands-on experience in AI models and data analysis techniques.

TRAINING & COURSES

- **AI & Data Science Student | Currently Pursuing, 2026** — Saylani Mass IT Training, Sukkur Campus

TECHNICAL SKILLS

- **Programming:** Python, C, Java, MySQL
- **Core Competencies:** Machine Learning, Deep Learning, NLP, Data Science, Graphic Design
- **Tools & Platforms:** GitHub, Google Colab, Jupyter Notebook
- **Languages:** English, Urdu, Sindhi

CERTIFICATIONS

- SIBA Testing Services (Passed — October 2023)
- Intermediate Grade Drawing Certificate (Feb 2023)
